

Custom Software Dev for Landscape Design Company

PROJECT DETAILS

 Custom Software Development

 Jan 2022 - Ongoing

 \$10,000 to \$49,999

PROJECT SUMMARY

Digital Artflow has developed a 3D configurator for a landscape design company. They've also integrated the system with the client's ERP infrastructure, helping them centralize their information for accuracy.

PROJECT FEEDBACK

Thanks to Digital Artflow, the client has substantially increased lead generation and received positive customer acclaim. The project's complexity led to a few delays, but the service provider has accurately delivered the project within budget. Their commitment and technical prowess are commendable.

The Client

Please describe your company and position.

I am an executive at Thermogreen AG

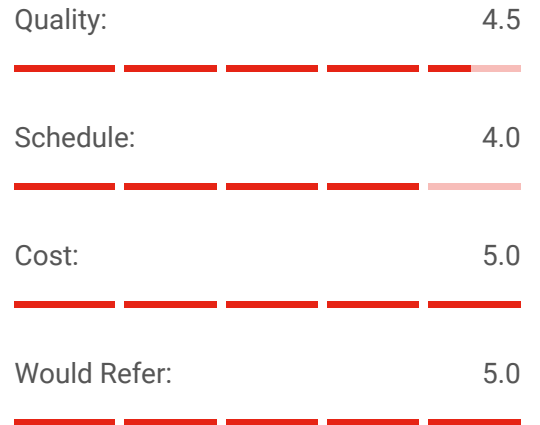

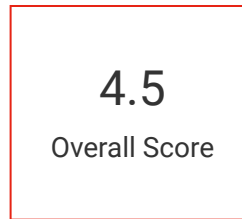

Describe what your company does in a single sentence.

Thermogreen specializes in creating outdoor spaces that seamlessly connect interior and garden areas, offering winter gardens, glass, and louvred roofs of exceptional quality and modern design.

The Challenge

-  Executive, Thermogreen AG
-  Design
-  Zurich, Switzerland

CLIENT RATING

The Approach

How did you find Digital Artflow?

Online Search

Why did you select Digital Artflow over others?

Good value for cost

How many teammates from Digital Artflow were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

We were in search of a sophisticated 3D configurator that empowers customers to design their desired products while receiving comprehensive cost estimates upon completion. Our primary objective was to establish a system seamlessly integrated with our ERP infrastructure, enabling the retrieval of pricing details and product knowledge, thereby centralizing our information for accuracy and consistency.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

Accurate costings for the designed project, lead generation, customer feedback.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

Given the complexity of the project, it's important to acknowledge that achieving perfect punctuality may not always be feasible. Admittedly, there were instances when delays occurred, and we recognize that some of these setbacks were due to factors within our control.

What did you find most impressive or unique about this company?

What stood out to me as particularly impressive and unique about DigitalArtflow is their unwavering commitment to fostering a seamless integration between creative artistry and technological innovation. Their ability to harmoniously combine artistic expression with cutting-edge digital solutions is truly remarkable, setting them apart in the industry.

This synergy not only showcases their technical prowess but also demonstrates their dedication to pushing the boundaries of what's possible in the realm of digital art.

Are there any areas for improvement or something Thermogreen AG could have done differently?

Reflecting upon DigitalArtflow's performance, it's valuable to recognize the strides made and consider opportunities for even greater success. In this light, enhancing communication channels, streamlining workflow processes, and fine-tuning the alignment of project milestones with achievable timelines could potentially contribute to an even more seamless and prosperous collaboration.
